Engineering Science Elective

Select at least **one** of the following courses (**circle choice**):

EE 204	3
ME 240	3
ME 350	3

Professional Electives

15 units / 10 Design units:

Elective course choices must consist of at least one course from at least four of the six areas to include 10 units from design courses.

Information

Required Courses: You must take each course listed in this area. All course substitutions are subject to the approval of your advisor and the department chair (documentation in the form of a catalog description, course syllabi and transcript will be required). After enrollment in Civil Engineering at SDSU, a CIVE major must take all upper division CCEE courses at SDSU unless prior approval is obtained from the Department Chair. Approval will be granted only in unusual circumstances.

Elective Courses: After consultation with your faculty advisor, circle your course choices. You and your advisor sign the reverse side of form and return the master plan to the CCEE office to be filed. Changes to your Master Plan can be made by completing a "Request for Adjustment of Academic Requirement" (RAAR) form. Have your advisor initial the form and bring it to the CCEE office for Department Chair's signature approval. The Department office will send the form to Evaluations. Special Study and Advanced Engineering Topic courses will be added to the master plan only after enrollment.

Course Prerequisites: Prerequisites will be enforced for all Civil, Construction and Environmental Engineering courses numbered 100-599. All courses must have a passing grade (D- or above) in order to be used as a prerequisite for any subsequent course. Courses noted with an asterisk (*) **require a grade of C or higher** and cannot be taken for credit/no credit (Cr/NC). A copy of your Degree Evaluation or unofficial SDSU transcript is acceptable proof of completion of pre- and co-requisites. If you are enrolled in a co-requisite at another institution, an unofficial transcript from that institution showing enrollment is required.

Graduation: To qualify for graduation, a **minimum GPA of 2.0 is required** in overall coursework, SDSU coursework and Major coursework. Major coursework consists of all upper division (300-500 level) courses required for the Major, approved Major electives and any additional upper division "CIV E" courses taken, whether needed for the major or not. This includes F, WU and IC grades.

Minimum number of units required for a Civil Engineering degree:

<i>Major Preparation</i>	44	
<i>Upper Division</i>	33	(9) <i>Design Units</i>
<i>Professional Electives</i>	15	(10) <i>Design Units</i>
<i>General Education</i>	<u>34</u>	
<i>Total for Degree</i>	126
